3 BUSINESS DAYS

## 01 WHAT YOU GET

### CURRENT WORKFLOW MAP

How the process actually works today.

### FRICTION REPORT

Duplicate capture, manual handoffs, delays and information gaps.

### FUTURE WORKFLOW

A simpler process showing what should happen instead.

### IMPLEMENTATION ROADMAP

Prioritised fixes plus a separate build quote.

## 02 A GOOD FIT IF

Your team repeatedly moves information between WhatsApp, spreadsheets, email, Shopify, Airtable, ClickUp or other tools — or captures the same information more than once.

### COMMON SIGNALS

- Manual re-entry
- Operational errors
- Disconnected systems
- Admin-heavy handoffs
- Poor workflow visibility
